## **ABSTRACT**

Information technology (IT) refers to numerous forms of information exchange among two or more computers through the interconnection by using internet. A few decades ago, most of the Islamic literature(s) were only accessible in the limited location and place. For example, in the mosques, Islamic schools and libraries. Muslims communities in the west were suffering getting information related to Islam due to the lack of sources available during that time. But now Muslims around world has become aware about the use of information Technology in spreading the Islamic literature all over the world. This paper shows the significance influence of information technology towards Muslims world.

**Keywords:** Information Technology, Smartphone, Muslim Community, Islamic Literature

## **INTRODUCTION**

Information technology offers various tools that can be used by human being in order to facilitate their routine activates. One of the greatest benefits to be gained from the use of ICT is Internet (Islam Online). The Islamic teaching has been applied in various aspects in human life. The spiritual of Islam spread all over the world from the prophet's time till now (Salaat time, 2011). Recently, we are living in a society that is affected by the technological innovations. Now most of the people cannot imagine their lives without things like Internet, cellular phones or e-commerce. It would not be a mistake to say that we are relaying on these technologies. Modern technology today is making a person instead of living a real life, living a virtual one. For example, Personal relations are substituted with online communications and some people have simply forgotten how to deal with people in real life after hours spent chatting on social networks. From Islamic point of view, it helps us in the online discussion forums. In these forums we exchange and share our idea. However, Muslims and non-Muslims can contribute in the online discussion through raising some current issues (Yousif and Ahmad, 2001). In This paper we discussed the significance impacts of information technology towards better Islamic community. We looked to the influence from different aspects such as the
